

Say Good Bye, to the days of the Touchbanking app.....

Say Hello to the New Community Bank app, to be released August 23rd.

What will occur the day the new app is released?

- Customers will receive a prompt when they log into the app that says there is an upgrade and to visit the store to download. The prompt is displayed below. By clicking 'Update Now', this will lead them to the App Store or Google Play where they will download their new app.
- Please note that some customers may not experience the prompt depending on the settings on their phone.
- The custom app will not require the app code any longer and customers will just need to enter their username, security question answer, and the password when they login to the new app.

After the customer completes the upgrade, the TouchBanking app will no longer work and customers can delete it off of their phone.
